ttl/"plastic blow molded" or ttl/"plastic blow-mol

PAT. NO.	Title
1 6,488,883	T Process and apparatus for producing a plastic blow-molded part
2 6,260,724	T Plastic blow molded freestanding container
3 6,065,624	T Plastic blow molded water bottle
4 6,029,837	T Plastic blow molded bottle having hand grips
5 6,019,236	T Plastic blow molded container having stable freestanding base
6 5,906,285	T Plastic blow molded container
7 5,850,931	T Plastic blow molded freestanding container
8 5,803,290	T Plastic blow molded bottle having annular grip
9 5,772,056	T Plastic blow molded container
10 5,766,712	T Coextruded multilayer plastic blow molded container
11 5,732,838	T Plastic blow molded container having lower annular grip
12 5,685,446	T Plastic blow molded freestanding container
13 5,664,695	T Plastic blow molded freestanding container
14 5,647,516	T Plastic blow molded bottle having bellows supported dispensing spout
15 5,615,790	T Plastic blow molded freestanding container
16 5,503,308	T Plastic blow molded bottle having bellows supported dispensing spout
17 5,287,978	T Plastic blow molded freestanding container
18 5,246,148	T Dispensing closure assembly for plastic blow molded container
19 5,139,162	T Plastic blow molded freestanding container
20 5,064,080	T Plastic blow molded freestanding container
21 4,662,515	T Plastic blow-molded articles with fold-up sides
22 4,579,260	T Plastic blow-molded container having dispensing valve
